COMMENTS (Number each comment to show from whom to whom. Draw a line across column after each comment.)

1. DDCI

28 JUN 1984

John,

The NPO has approached us as described in the enclosed Memo for the Record.

OC has worked hard this past year to establish solid channels to DoD (JCS, DCA and the appropriate Services) to get our satellite needs met, both UHF and DSCS. We succeeded in getting an additional UHF channel for Central America and are in the process of identifying a large capacity channel -- 500kHz which the Navy may make available to us beginning next fiscal year for \$3.5M.

I do not believe the NPO should represent us in this arena. I think the Agency should go the route stated in paragraph two of the enclosed memorandum. Do you agree?

Bill

DD/CO

Bill - per our
Enc. telex - you're
a little more
charitable than DDCI
is willing to be.
He won't even
participate in
discussions, which
could imply tantamount
agreement.

MEMORANDUM FOR THE RECORD

SUBJECT: NPO Initiatives Regarding Satellite Requirements

25X1

1. [] of the NPO called a meeting attended by reps of NPO, NRO, NSA, NIESO and CIA/OC. [] observed that individually none of these organizations carries as much weight in the DoD satellite world as we could if we band together and present requirements as a single entity. "Strength through cooperation" is the term that was applied repeatedly. [] proposed that the NPO head such an endeavor. 25X1 25X1

2. I stated the Agency position as being willing to participate with this group in discussions of requirements and approaches so that we would all understand each others needs, situations, etc. However, since we have established channels, procedures and contact points, and are satisfied with the attention that our needs are receiving, we do not wish to participate in yet another formal panel that parallels what already exists.
